Grammar Books with Exercises 444 Advanced Level Longman Advanced Learnerse444 Grammar If you have been learning English for a while, you will need to go ahead with complex structures like verb patterns, conditionals, and so on. Yes, they are systematic and easy to follow, but I have seen numerous cases when it was used as a core book for many English courses. Along with the books written specially about exams, this one will help you with completing the gaps and creating a clear grammar system in your head. Grammar Books with Exercises 444 Intermediate Level Natural Grammar: The key words of English and how they work by Scott Thornbury It is one of my favourites to use with students. If you like grammar, of course 4444 Why I recommend it Great real-life examples of English usage; Gives you control over your grammar; you done444 need a teacher or a long course; There is an online version available. Why I recommend it They have really good chapters about types of phrases and sentence structures; It444As a modern approach to learning English: The book is based on 3000 most used words in English. They never disappoint. I love their approach of teaching you grammar, vocabulary, style, and writing skills all in one. Why I like it You will learn how to really use the top 200 words in English 444A very well-directed effort; It444As real-life English, not some abstract concepts; You can use it without a teacher 444A the structure is very clear. If you ARE preparing for the Cambridge exam though, you can444 do without these guides. It gives you a well-structured understanding of English grammar and a lot of practice. Like, really. Grammar Scan (Upper-intermediate, Advanced, Expert) This book will come handy if you want to check your knowledge of English grammar. It is truly a book written to teach you how to USE English, not just learn ABOUT English. I like the approach of exploring the most frequent structures and word Drofxo DNAA A,nacs Rammarg Rof Wreeban .Event Trohs A ni Gnufnoc of Wea A this og dluoc i .syad esht hsligone of yawh eh A A . e .
